

EU PSUG 2016 Presenters

Adam Larsen

Adam has a background as a web developer and school psychologist. He has blended these interests and skillsets into a single position where he manages the collection and analysis of data, coaches principals in the use of student information, and develops tools for tracking and reporting student progress for a medium-sized rural school district in the United States, about 160km from Chicago. Adam managed the PowerSchool implementation for this district in 2010 and continues as the chief administrator of the system to- day. We are delighted that Adam is coming all the way over the be with us and will cover conference sessions among the following topics:

HTML/CSS for PowerSchool Customization SQL Powerful Queries, Automating Data Tasks, Visualising Data in HTML Pages with Fusion Charts, Code Management, Data Access Tags, JQuery

Greg Satterwhite - PS TechGroup

We are happy to announce that Greg will be with us again this year. He is the president and principal consultant at PSTechGroup, Inc. A former tech support manager and trainer at PowerSchool with 14 years of PowerSchool experience, he goes back to the days in the late 90's when what is now PowerScheduler was being developed and later integrated into the PowerSchool SIS. Greg has presented at numerous PSUG conferences over the years. Working with schools all over the world, Greg specializes in **Scheduling, Standards, training and implementations** and has very kindly offered a variety of courses to suit your needs and also Help Sessions.

Jason Springel - PowerSchool

Jason Springel is the PowerSchool Evangelist and Senior Product Marketing Manager for PowerSchool, the leading education technology platform for K-12 schools. Jason has been assisting schools with their technology needs in a variety of roles for the past 22 years at Apple, Pearson, and PowerSchool, and uses that experience to provide guidance and leadership to help shape future product development. Jason delights in meeting and working with customers and educators at user group conferences and other events, where he has become a well-known speaker.

Jason has been a fan and user of PowerSchool since 1999, and feels privileged to officially represent the product. Jason will give us two remote sessions on the new **PowerTeacherPro Gradebook**.

Chris Walberg - Intellimedia, Inc.

Intellimedia (the primary sponsor of our Conference) is a consulting and software development company specializing in education services and solutions with a proven track record of helping schools optimize the value of technology investments, including PowerSchool. Intellimedia has extensive knowledge and experience with education solutions and PowerSchool customizations as well as our close relationship with Pearson as a trusted Pearson partner integration consultant positions us to help schools and Powerschool partners improve efficiency, enhance data driven decision-making as well as achieve more seamless system integration. Chris Walberg from Intellimedia will offer a remote session on either of the two following topics: **Advanced Customization, Basic Customizations with Database Extensions**.

AI Momrik – LevelData <http://www.leveldata.com>

AI Momrik is a Business Analyst at Level Data, located in the U.S. He has been with Level Data for three years. Prior to that, he worked for a school district in Michigan where he was the Technology Director, SysAdmin for PowerSchool, and also handled data submissions to the State for thirteen years. He also works with PSUG Events holding PowerSchool conferences around the country. AI trains at approximately ten conferences per year, primarily in the areas of Microsoft Excel, Counselor's duties, and Data Quality. AI will be offering remote sessions on **Excel, Data Management, Graduation Progress, PS for Counselors**

Adrian Smith (from ACS in London)

Has offered to share his Activities customization with us and work with anyone on their customization ideas and needs..
